Phil Moran, co-founder of My Secret Kitchen says "we've watched the retailers attempts to get to the restaurant goes by offering the dine in for 2 deals , but do they really offer the restaurant quality and even more importantly do they bring in the ambiance? We believe that our inspirations bring both to the home"

Background

My Secret Kitchen is the UK's first nationwide food and drink tasting company, and was started in 2006 by husband-and wife-team, Clare and Phil Moran. They've taken the traditional Tupperware style business concept of home demonstration parties and turned it into a wonderful food tasting evening (<http://www.mysecretkitchen.co.uk/host/index.html>), where the host and his/her friends have an enjoyable time experiencing unusual and different foods, sharing recipe ideas in a warm relaxed non-pressure environment. All My Secret Kitchen products are free of artificial colours and flavours, and the company strongly believes in an authentic (<http://www.mysecretkitchen.co.uk/about/values.html>), sustainable spirit of business.

The business concept has proven to be a great success in the recession for food lovers who are looking for an extra income and have joined My Secret Kitchen as a consultant, earning money from showing all the great foods.
