As an ancient symbol of peace and hope, an Olive tree is the perfect present for special Fathers. There are many ancient myths and folklore tales linked with the Olive Tree. Believed to be one of the oldest trees in the world, it features strongly in many religious and culture celebrations. The delicious oil is still used in many religious rites and can be found in store cupboards throughout the world. A staple of the healthy Mediterranean diet, it enhances the flavour of food and is wonderful for cooking with as well as a perfect dressing for salad.

Native to the Mediterranean, Olive trees can live for up to 2000 years and are an ideal tree for the patio or conservatory so your Dad doesn't need to have a huge, landscaped garden to own one.

Gareth Mitchell, creator of [tree2mydoor.com](https://www.tree2mydoor.com/) (<https://www.tree2mydoor.com/>), offers advice for gift-giving this Father's Day: "A tree sapling is the perfect alternative to the standard toiletries, chocolates and golfing trinkets. Tree gifts last a lot longer and are a much more original, thoughtful and impressive present.

"Plus, as we are now faced with the recession, buying a tree is certainly a cost effective and memorable way to say you care. And, just like your family relationships, a tree is a long-term investment."
