

# Version One Expands into America and Introduces New UK General Manager

Submitted by: V1 Ltd  
Wednesday, 6 May 2009

---

Document management (<http://www.versionone.us>) and imaging software author, Version One ([www.versionone.co.uk](http://www.versionone.co.uk)), today announces the expansion of Version One into America and the appointment of Julian Buck as Version One UK's new General Manager.

Against a backdrop of economic instability, Version One has enjoyed year-on-year growth and profitability. To ensure the company continues to grow, Version One is expanding its footprint into America – a market which provides considerable untapped opportunity.

Lynne Munns, who has been Version One UK (<http://www.versionone.co.uk>)'s General Manager since October 2007, is heading-up the new Version One U.S.A (<http://www.versionone.us>) operation and as of today, Julian Buck is Version One UK's new General Manager. Julian brings with him over twenty years' experience in the IT industry, extensive management experience and a solid understanding, not only of the document management (<http://www.versionone.co.uk>) market but also the UK IT channel. Julian's previous roles include Customer Services and Support Director at COA Solutions – one of Version One's largest re-sellers, Services Director at Pegasus Software (now part of Infor) and Director at ComputerLand UK.

Lynne Munns, General Manager of Version One U.S.A says, "We have identified a gap in the American market for a document management software (<http://www.versionone.us>) author with an end-to-end product offering and experience of integrating into financial systems. With our comprehensive product portfolio, integration capabilities and extensive experience of selling via the IT channel, the U.S.A provides us with considerable growth opportunities."

Julian Buck, Version One UK's New General Manager will be focusing on growing the UK document management business as he explains, "For Version One U.S.A to be a success, it is vital for the UK operation to continue to thrive. I intend to work closely with the Version One team and our channel partners to identify new product and market opportunities, ensuring we remain the UK's leading document management provider."

About Version One [www.versionone.co.uk](http://www.versionone.co.uk) and [www.versionone.us](http://www.versionone.us)

Version One Ltd is the author of electronic document management and imaging solutions. These solutions enable the electronic storage, retrieval, management, enhancement and delivery of business documents such as invoices, purchase orders and statements. This 'paperless office' technology is seamlessly integrated into all major ERP and accounting systems and with a typical ROI of less than six months, Version One's solutions are enabling thousands of organisations to cut paper consumption whilst saving dramatic amounts of time and money.
