A leading UK provider of human capital management (http://www.coasolutions.com/human-resources/human-resource-software.php) (HCM) systems, COA Solutions (www.coasolutions.com), is launching COA Solutions On Demand, on stand H180 at the HR Software (http://www.coasolutions.com/human-resources-software.php) Show 2009 (17-18 June at Olympia Conference Centre, London). COA Solutions is also presenting a Masterclass at 14:15 on 18 June advising organisations of the key factors they should consider during the tendering process for a new HR and payroll provider so that they select the best supplier for their needs.

'COA Solutions On Demand' provides businesses with three different levels of service to suit their HR and payroll needs – a managed service, a hosted service and a bureau service. These services relieve organisations from the burden of time-consuming administrative processes by enabling them to focus on their core HR and payroll activities.

The portfolio of 'COA Solutions On Demand' services can be 'picked and mixed' allowing organisations to select the elements of technical, hosting and payroll services (http://www.coasolutions.com/human-resources/human-resources-payroll.php) that best suit their requirements. All 'COA Solutions On Demand' services are available for a fixed, monthly fee, providing a cost-effective way for organisations to streamline efficiencies.

Mark Thompson, Managing Director of COA Solutions, says, "With 'COA Solutions On Demand', organisations of all sizes can eliminate the time and costs associated with HR and payroll administration (http://www.coasolutions.com/human-resources/human-resources-payroll.php). Whether an organisation just wants their payslips printing or requires a fully hosted HR and payroll service, we have a solution to suit. With COA Solutions acting as an extension of companies' HR and payroll departments, this allows the company's staff to concentrate on value-adding activities which is critical during challenging economic times."

Thompson continues, "As a leading software author in the HCM software (http://www.coasolutions.com/human-resources-software.php) market with over 20 years' experience within the UK HR and payroll industry, businesses have peace of mind that we can reliably fulfil all of their HCM needs."

In addition to launching 'COA Solutions On Demand', COA Solutions will be exhibiting its full range of HCM products including HR, payroll, workflow (http://www.coasolutions.com/human-resources/human-resources-net-workflow.php), HR analytics (http://www.coasolutions.com/human-resources/human-resources-hr-analytics.php) and time and attendance systems (http://www.coasolutions.com/human-resources/human-resources-time-attendance.php), providing a complete solution for organisations' HR and payroll needs.
