Poker Controls (<http://www.PokerControls.com>), the UK developer and distributor of specialist tools for Online Poker (<http://www.PokerControls.com>) players, today announced the launch of its brand new-look website and online store.

The new and smart looking website contains detailed information on Poker Controls and its products, featuring the New Wireless Poker Controller which has received an overwhelming response from the Online Poker market since its launch in the spring of 2009.

Poker players across the world can now also pre-order and secure their Wireless Poker Controller (<http://www.PokerControls.com>) ahead of the rest via the new secure Poker Controls Online Store.

The Poker Controls Online Store, accessible directly from the Poker Controls main website, enables players to order using their Credit Card or PayPal account and the Wireless Poker Controller is priced at \$79.99 plus tax & shipping.

Due to the phenomenal response and demand for the Wireless Poker Controller, poker players are recommended to pre-order their Poker Controller as soon as possible to avoid having to wait for stock quantities to be replenished once the product hits the open market.
