

NEW Designer radiator: ARIGATO from MHS Radiators

Submitted by: Red Cell

Thursday, 4 June 2009

Arigato from MHS Radiators is a beautiful contemporary radiator with strong lines and soft curves.

Arigato is perfect for designers and homeowners who are looking for a radiator which isn't afraid of being seen and is as much part of the interior design as furniture or artwork. Its strong tubular lines are echoed in its fine furrowed finish. Available in either vertical or horizontal versions, Arigato offers a choice of polished or satin finishes.

Arigato Vertical is available in two heights (600mm or 1800mm high) and six widths from 290mm wide to 990mm wide. Arigato Horizontal is available in two sizes: 1200mm wide by either 190mm or 290mm high. Outputs range from 324 Watts to 2 kW.

Arigato is part of MHS Radiators' popular and wide ranging collection of ultramodern, modern and traditional radiators and towel rails and is available through the extensive UK network of MHS Radiator Display Centres – for details visit www.mhsradiators.com

A full selection of high resolution images from MHS Radiators is available at www.pressloft.com.
