Celebrate Father's Day with this magical book from personalised book publisher Itsyourstory which features Dad in the illustrations and tells the story of their special trip to the Zoo with their child.

Not only a wonderful gift and keepsake, this is a lovely book for Dad and child to read together, following their adventures together when they meet all the animals at the zoo from pandas and pythons and penguins and hippos.

Watch Dad as he swings in the trees with the monkeys, hangs upside down alongside bats, hides in the bamboo with a panda and visits the hippo's birthday party!

The book is perfect to be read to children aged 3 to 6 years old and is fun and interactive, asking questions on every page such as "can you waddle like a penguin?"; "how many teeth has the crocodile got?"; "what colours can you see on the umbrella?".

The book includes a personal message at the front ('Happy Father's Day Daddy!') and additional personal information in the story such as the first line of the child's address; the town/village they live in; their favourite food; their age; the names of two friends; the adult's favourite colour; the adult's age and the adult's favourite food.
