---

Shiny or lacquered surfaces are everywhere this season and these Wood Venetian blinds (<http://www.novatec.co.uk>) from Novatec demonstrate the look perfectly. Their high-gloss finish reflects light around the room, preventing the black looking too dark and creating an easy 'East meets West' fusion.

The effect created is one of restrained opulence, uncluttered window dressings with a touch of drama.

Available from Novatec stockists (<http://www.novatec.co.uk>) from August 09, this is a Wood Venetian collection for the Connoisseur, representing enormous choice in terms of colour, finish, slat width and system type.

As well as the high-gloss finishes, there's a stunning range of metallic finishes, distressed woods and a range of laminated woods.

Prices for a 50mm 'High Gloss' Wood Venetian start from £118.

All Wood Venetian blinds are made from non-endangered basswood and are made-to-measure to ensure they fit your window perfectly.

The stylish collection presenter will be available to view from nationwide high street retailers from August 09. Telephone 01843 608780 for your nearest Novatec specialist.

Or search online for your nearest stockist at [www.novatec.co.uk](http://www.novatec.co.uk)
