

TADASoft named as a leading emerging vendor by ChannelWeb

Submitted by: SO Marketing

Monday, 29 June 2009

TADASoft, an award winning vendor of innovative configuration backup appliances has been named by ChannelWeb in the USA one of their emerging storage vendors to watch out for 2009.

Being recognized and named by ChannelWeb is a huge achievement for TADASoft who in just two years have already become a leading storage/security vendor in the UK having won some significant awards such as the SC Magazine Innovation Award in 2009 and Storage Product of the year as voted by the readers of Storage-Biz News.com

TADASoft is actively recruiting partners and has recently signed up a number of resellers and distributors throughout Europe and beyond to promote, support and distribute the appliance and managed service option including DNS Arrow in the UK, iSecure in Israel and Trygg Data in Norway

RestorePoint is a multi-award winning integrated hardware and software solution for Network Administrators, which makes it easy to automatically backup and store the configuration of their network devices and to restore it when needed. This is managed from one convenient central location with an easy to use web interface. Restorepoint is the only vendor independent appliance on the market and the first product to address this commonly overlooked issue.

Commenting on this news from the USA, Rory Nolan, Director of TADASoft said : "This is amazing. Considering we have done no marketing at all in the USA, to be identified and recognised like this is a great boost to our plans to break into that market", he continued "We are proactively speaking with partners in the USA and are looking to invest in growing our business there over the next few years."

About TADASoft

TADASoft is a privately held company with headquarters in the UK. The company's mission is to provide powerful enterprise-class appliance solutions that are suitable for the largest of organisations, yet offer the ease of use and affordability for small business applications. Restorepoint won "Most Innovative Storage Product" at the recent Storage Expo, won SC Magazine's coveted Most Innovative Product award and won "Storage Product of the year" by Storage Biz News.
