DoubleCAD XT (http://www.softwareparadise.co.uk/products/DoubleCAD_XT_Free) is a free CAD drawing and drafting software that is fully compatible with AutoCAD LT and Google SketchUP.

If you want another CAD seat in your drawing office, there is no need to spend £800+ for an extra AutoCAD LT license, simply download (http://www.softwareparadise.co.uk/products/DoubleCAD_XT_Free) a free copy of DoubleCAD XT from Software Paradise (http://www.softwareparadise.co.uk/products/DoubleCAD_XT_Free).

- If you have an older copy of AutoCAD LT that can't read the latest AutoCAD files, DoubleCAD XT will solve the problem
- DoubleCAD will also allow you to work with concept-to-construction drawings in Google SketchUp.

DoubleCAD XT PRO (http://www.softwareparadise.co.uk/products/DoubleCAD_XT_Pro) is a 2D and 3D CAD software application for drafting and detailing – suitable for architectural and mechanical design projects.

DoubleCAD XT Pro is not claiming to be an AutoCAD clone. It has been developed as an AutoCAD companion so users can continue to work within their familiar AutoCAD interface.

DoubleCAD XT Pro helps streamline workflows, which enhances productivity. For example, if the DoubleCAD documentation process begins with an Xref (an Xref allows the AutoCAD user to apply any changes made to drawings shared by multiple users), the design may continue to evolve in AutoCAD without having to start over again in DoubleCAD. The drafting palette views, elevations, details, etc, will update automatically.

- Supports .DWG (file format for storing two and three dimensional design data and metadata) and AutoCAD Architecture (ACA) extensions
- Reads and writes up to 30 file formats – including .DXF and .DWF, support from R14 through 2009 (with 2010 coming soon)
- It can open .SKP files directly in Google SketchUp
- Protects your intellectual property in existing drawings
- Affordable – DoubleCAD XT Pro costs £425+vat, AutoCAD LT costs £835+vat.

You can compare DoubleCAD with AutoCAD LT here:

Software Paradise also offers CAD training courses (<http://paulthecad.co.uk/training>). 2D and 3D courses take place in Winchester, Hants. Further information can be found at <http://paulthecad.co.uk/training>

DoubleCAD is being launched in the UK by Software Paradise (<http://www.softwareparadise.co.uk>), an extensive online software source for users of business and home software. Software Paradise carries more than 38,000 software lines, including an extensive range of CAD titles. If you can't find what you are looking for, Software Paradise (<http://www.softwareparadise.co.uk>) will find it for you!

For a limited period of time, Software Paradise (<http://www.softwareparadise.co.uk>) is giving away a free copy of Corel Designer Technical Suite x4 (worth £735) with every purchase of DoubleCAD XT Pro. Corel Designer Technical Suite x4 will automatically be added to your basket when you add DoubleCAD XT Pro.
