

Light up your Winter Weddings with Nordic House...

Submitted by: Nordic House

Wednesday, 25 November 2009

Whatever the theme, combine plans for a winter wedding with sparkling Scandinavian style available at Nordic House to create a truly magical, intimate and romantic occasion.

The new winter collection, including a special weddings and parties range, is now at the online lifestyle boutique www.nordichouse.co.uk

Guarantee breathtaking first impressions by decorating pathways, archways and entrances with outdoor candles, hurricanes (http://www.nordichouse.co.uk/outdoor-candlelight-c-46_65.html), lanterns, party torches or tall candle holders. Hang a row of wall sconces for candlelit background lighting; group tealights and long burn candles on window ledges. The soft glow of candlelight will create a magical and memorable setting for that special day.

For the winter wedding table there are heart shaped vases (<http://www.nordichouse.co.uk/glass-heart-vase-foot-p-397.html>), heart encrusted silvered, white, red, black, glass, frosted and metalled votives, as well as spherical glass vases for a single flower and place card holder (<http://www.nordichouse.co.uk/glass-name-place-vases-p-398.html>). And there are hanging silvered glass tealights, table runners, cushions, napkins and fabric bags – all with hearts on.

Winter wedding planners need look no further than the online lifestyle boutique Nordic House (<http://www.nordichouse.co.uk>). And there are gift vouchers too.
