

# All Uniblue software is now available in 17 languages; a reflection of the company's global strategy.

Submitted by: Uniblue Systems

Thursday, 8 July 2010

---

PC performance leaders Uniblue (<http://www.uniblue.com>), have released the PowerSuite range of software in 17 languages. PowerSuite is a powerful combination of all three Uniblue utilities in one, simple-to-use interface. Each utility included in the suite; RegistryBooster, SpeedUpMyPC and DriverScanner can be purchased individually, or users can purchase PowerSuite as a powerful solution to combat PC speed issues, registry errors and outdated drivers.

Following the release of the software in 5 languages in Q4 2009 and seeing the results, the decision was taken to increase the number of languages in which the software is available. SpeedUpMyPC was launched in a further seven languages in March, and this was followed by PowerSuite in April. The company is committed to expanding its global reach and has now launched the whole range in a total of 17 languages.

The software is now available in: English, French, German, Italian, Spanish, Portuguese, Dutch, Danish, Swedish, Norwegian, Finnish, Polish, Russian, Greek, Turkish, Brazilian Portuguese and Japanese.

Uniblue is currently recruiting a number of people with excellent language and marketing skills to work in "Country" teams managing each new territory. The roles will be based at Uniblue's Global HQ in Malta. The company continued to see steady growth during the global economic downturn, and is looking at achieving record global sales during 2010.

#### Resources and Material:

- PowerSuite 2010 is available as a download from Uniblue's website <http://download.uniblue.com/ub/main/ps/solutions/powersuite.exe> as well as from many other sites worldwide. PowerSuite 2010 costs £39.95 ex. VAT to buy with one year of ActiveProtection including support and updates. Each license is valid for use on up to three PCs.

- For more information about PowerSuite, please visit the product page on the Uniblue website: <http://www.uniblue.com/software/powersuite>

- Not for Resale review copies are available from Hilary Rogers, PR Manager, Uniblue: [hilary.rogers@uniblue.com](mailto:hilary.rogers@uniblue.com). Additional press material can be found on the media resource page for PowerSuite: <http://www.uniblue.com/company/mediareources/powersuite>
