We're a romantic lot here at Love Eco but proud of it. We go to great lengths to find the best in ethical and eco design and only stock things that, quite simply, we have fallen head over heels for.

We have a particular fondness for small producers who work hard to make things that will last, that can be treasured and that have a minimal impact on our vulnerable environment.

Now we've pulled together our 2010 Ethical Christmas Gift Guide (<http://issuu.com/loveeco/docs/ecoxmasgifts>) to give you a taster of the wonderful array of gifts, interiors and clothing that we have available.

We have original, eco-friendly gift ideas for the whole family plus festive homewares and decorations and some great little stocking fillers.

We'd love for you to share our passion and invite you too to fall in love with our delightful range. In fact, we challenge you not to!

And, finally, we couldn't possibly fit everything into this one publication so if you like what you see here, you'll definitely like our online store where you can find much much more. Visit us now at www.love-eco.co.uk
