Wednesday, 5 January 2011

Property Shuttle, operated by Property Events in conjunction with CT Group Travel (<http://www.ctgrouptravel.co.uk>) launch new chartered flights for MIPIM 2011 property event.

Property Shuttle launches a new chartered flight for those wishing to attend the MIPIM Property event, which this year is taking place from 8th to 11th of March 2011.

Previous years have seen flights operate from Luton, but on receiving customer feedback Property Shuttle have been able to secure a new service departing from London Heathrow to Nice, France.

The annual MIPIM Property Conference takes place in Cannes. The event attracts senior high level decision makers from across the globe, all looking to develop their business. MIPIM 2011 takes place at Palais des Festivals in central Cannes. The MIPIM Property event is stretched over three days with many different exhibits.

The MIPIM Property event attracts around 2,000 property exhibitors, in 2004 MIPIM attracted over 15,000 business men and women from the property market. This year the MIPIM Property Conference is set to attract approximately 29,000 people.

Property Shuttle is the only travel agency servicing MIPIM attendees exclusively. CT Group Travel, a specialist in event management and a member of UNIGLOBE has been working alongside Property Events for many years to ensure its clients get the best possible service and value for money. The teaming up of CT Group Travel with Property Events means the two organisations can pool together their resources using experts in each of their fields to produce outstanding conference management (<http://www.ctgrouptravel.co.uk/conferences/>) services to all those taking part in the MIPIM event.

Mark Kempster, CT Group Travel Managing Director commented, "After listening to our customers' feedback we took the decision to charter a new flight to depart from London Heathrow as opposed to Luton, which is more convenient to many of those wanting to attend. So far bookings for the event are very positive with three quarters of the plane already sold, and should the demand continue, we have the option to charter a second aircraft".
