

SK:N DEVELOPS ULTIMATE DETOX FACIAL FOR A PERSONALISED 'SKIN' CLEAN THIS JANUARY

Submitted by: sk:n clinics

Thursday, 6 January 2011

The winter months can take their toll on our skin, from naughty indulgences throughout the festive period to the effects of the harsh winter weather, leaving our skin looking dull and lifeless. Sk:n, the UK's number 1. skin clinic, has developed an intensive bespoke treatment which promises to kick start your 2011 skin regime with a deep cleanse that purifies the complexion, ready to kick start the new year.

Ultimate Detox Facial – no one will ever know!

- An in-depth skin analysis to ascertain skincare habits, skin type and needs*
- A warming cleanse to strip the skin of the morning's impurities without over drying the skin
- An exfoliating microdermabrasion OR glycolic peel - depending on the individual's skin requirements - to lift away dry, dead winter skin, giving a fresher, brighter look to the skin and softening fine lines and wrinkles
- A deep cleansing clay mask
- Application of SkinCeuticals Hydrating B5 Gel to replenish and hydrate the skin
- Application of sk:n Derma Performance Repair Serum - protecting against UV-induced cell changes and helping to reverse the ageing process in cellular activity

Anti-Ageing Expert Nicky Hambleton-Jones from Channel 4's 'Ten Years Younger' comments, "It's not always easy to keep our skin looking good, and normal day-to-day activities can soon take their toll, especially throughout the Christmas period when our skin suffers from the effects of over indulgence and stress. This quick fix treatment is a great way of ridding your skin of any impurities ready to start the new year with a bang."

Nicky's new website www.lookandfeelyounger.tv (www.lookandfeelyounger.tv) provides a whole host of tips on how to start your year looking and feeling great

Treatment time: 30 minutes

Price: Half price £35 (RRP: £70)
