

Pandora Jewellery S/S 2011 Collection at the Jewel Hut

Submitted by: T H Baker & Company

Tuesday, 26 April 2011

The Jewel Hut is proud to be one of the first jewellery websites to feature the brand new Pandora jewellery Spring/Summer 2011 collection.

The popular UK jewellery specialist now counts the latest treasures from Pandora's box amongst its extensive range of Pandora charms and other jewellery.

Avid collectors of the phenomenally successful Pandora jewellery (<http://www.thejewelhut.co.uk/pandora.htm>) will be able to add an exciting series of themed, decorated beads to their existing charm bracelets.

The quality of previous Pandora items is upheld, with materials including sterling silver and 14ct gold often accompanied by precious stones. Look out for emerging patterns including summery floral designs, new murano glass beads and the use of chalcedony and rhodolite.

Also new this season is a series of coloured, woven macramé bracelets that offer an alternative to silver and gold rope-style carriers. A series of new birth stone beads are also available, along with fun character beads including a Viking, babushka and a dog in a kennel.

2011 is the year that Pandora celebrates ten years of its hugely popular bracelet concept, so get started with these highly sought-after new additions today if you're not one of the lucky ones who already wears a bracelet.

The Jewel Hut (<http://www.thejewelhut.co.uk>) is an authorised dealer of all Pandora jewellery available on the site, meaning you are buying from a trusted retailer and that all items are 100% genuine. The website has recently gained exclusive rights to sell the brand's gorgeous new Pandora watches, meaning you can dress to impress with the full Pandora collection at the Jewel Hut.

To view the new Pandora jewellery collection, please visit <http://www.thejewelhut.co.uk>. Follow us on <http://www.twitter.com/thejewelhut> (Twitter) for more news and info.
