

# Summer is coming – now is the time to get a water cooler!

Submitted by: Angel Springs

Wednesday, 11 May 2011

---

The hot weather we've experienced this April has seen many of us sweltering in the work place and left many businesses realising they need to ensure workers are kept hydrated this summer.

Now is the perfect time to invest in a water cooler for your business and Angel Springs, the UK's leading water cooler service provider has the perfect solution for your businesses water needs.

Offering both bottled and mains fed water coolers, Angel Springs have over twenty years experience in water coolers and with roots going back to 1989 offer a really flexible choices of pricing packages – including fixed price arrangements where you pay exactly the same every month – ensuring there are no huge bills in the summer.

Offers range from an unlimited pay as you go package for either mains fed or bottled water, to bronze, silver and gold packages ranging from £32 to £52 per month.

Whatever the scale of your businesses and staff numbers, Angel Springs will be able to tailor a package to suit you, and your budget. With so much flexible choice and competitive prices there's no reason for anyone to swelter in the sun this summer.
