Scotland's leading manufacturer and supplier of UPVC windows (<http://www.crsmith.co.uk/windows/>), doors and conservatories (<http://www.crsmith.co.uk/conservatories/>), CR Smith, have taken delivery of 23 Citroen C5 Tourers for the sales team, joining CR Smiths 150 strong vehicle fleet.

CR Smith's Fleet Manager, Ian Darroch, comments; "We selected the Citroen C5 Tourers to meet the demanding operational requirements of our sales force. They need a car with a boot big enough to carry large samples of the window and conservatory sections we manufacture and install, while as a business we demand low whole-life costs. The C5 Tourer meets all of these requirements having the interior space of a large vehicle combined with low running costs, with up to 64mpg."

CR Smith has chosen the Citroen C5 VTR+ NAV HDi 110 manual, which includes MyWay colour satellite navigation, supplied by Citroen dealer Arnold Clark in Armadale.
