

Countdown to Christmas Continues with Photo in Canvas

Submitted by: Inside Online Marketing

Tuesday, 20 December 2011

(United Kingdom – 20th December 2011) Christmas is just days away now and Photo in Canvas has stepped up its commitment to its customers with its wide range of canvas prints and next day delivery.

Many customers are looking for a photo on canvas (<http://www.photoincanvas.co.uk>) service this Christmas in an attempt to give unique and personalised gifts to loved ones especially as the streets and high street stores fill with last minute shoppers.

Photo in Canvas is renowned for its high quality canvas prints and wide range of designs and styles in the Canvas Art Shop. Amongst the most popular are the Keep Calm and Carry On and Banksy prints which provide customers with the opportunity to hang well-known art work in their homes.

For customers looking for a more personalised print, Photo in Canvas offers a Make Your Own Canvas (<http://www.photoincanvas.co.uk/pages/make-your-own-canvas.php>) service which gives customers plenty of choice when it comes to designing their own prints. Not only can customers choose from classic print style but also from a photo montage or split panel design plus there is a plethora of designer custom effects such as pop art and posterisation which make prints unique to any other.

Customers looking to order in time for Christmas are asked to do so before 22nd December at 2pm. To browse the full range at Photo in Canvas, simply visit the site.
