---

Trustmarque moves to state of the art new offices to accommodate its rapidly growing workforce

York, UK, 9th January 2012 – Infrastructure and software solutions Value Added Reseller, Trustmarque, announced today that it has taken up occupancy of a significantly larger property for its Headquarters.

Trustmarque has been on a vigorous recruitment drive spurring the need for additional space. In just three short years the company has doubled in size from from 85 employees to 170 and the company is still on the lookout for more talent. “We currently have several vacancies across the UK and without this move we would not have had the capacity to accommodate them,” comments Mark Godliman, Chief Operating Officer for Trustmarque.

2011 was a particularly successful year for Trustmarque. The company was able to secure the coveted title of CRN Services Provider of the Year and completed its first acquisition of a Cloud technology company, Nimbus Technology. It has also expanded its national footprint over recent years with the opening of offices in Scotland in 2009 and the expansion of its Southern office earlier in 2011. The move to new headquarter premises will allow the company to continue its expansion while also offering more space for training staff as it further develops its service offerings.

“Growth really is top of our agenda at the moment, with the speed at which our team is expanding the additional workspace is a necessity,” comments Angelo Di Ventura, Group Sales and Marketing Director for Trustmarque. “We have doubled our sales team and we are actively seeking further acquisitions, as well as developing our training and development initiatives. We recently brought in Ben Cranham to coordinate and advance our graduate recruitment and new hire sales development programme. As a services company, having the space onsite to deliver training is a real benefit to us and our new premises are fully equipped with the latest technology to ensure our staff have everything they need to provide an exceptional service to our customers.”
