Floridatix had a fantastic month in January with their super savings worth up to £300 along with the Kids Eat Free offer on selected Florida attractions tickets (<http://www.floridatix.co.uk>).

Well, there's even more good news, these offers have been continued into February as well. This gives more people the chance to save when booking their tickets. Whether its Walt Disney World, Universal Orlando Resort, Aquatica, SeaWorld, Busch Gardens or the Orlando Flexticket, you can receive massive savings on these products.

This could only be possible because of the great reception the January offers received, so let's make February even better!
