## HEDGEHOG STOPS GUTTER CLUTTER ALL YEAR ROUND

Spring is in the air and it's time to give your house and garden a bit of an overhaul after the harsh winter.

If your annual home and garden MOT usually involves the arduous and potentially dangerous task of clearing your gutters and drains, then Hedgehog Gutter Brush is on hand to make this a thing of the past!

If your home is surrounded by trees, or even if your next door neighbour has trees, you'll be only too aware of the damage and destruction that blockages in your gutters, drains and downpipes can cause due to the build-up of leaves and twigs.

Hedgehog Gutter Brush is a cost-effective, innovative device that eliminates the need to call on a professional gutter and drain cleaner at huge expense or for homeowners to carry out maintenance of their gutters on a regular basis.

Hedgehog works by simply preventing leaves, twigs and other debris such as birds or rodents from entering the gutter, while allowing rainfall to flow freely through your gutters. So no more blocked rain systems and overflowing gutters or expensive fees for unblocking drains!

Hedgehog is manufactured from hard wearing UV resistant polypropylene brush filaments spun around a steel wire spine. It's virtually indestructible, requires no maintenance and will keep gutters clear year on year.

The clever device automatically adapts to the shape of almost any type of gutter, fits around corners and down pipe outlets and can be simply and quickly fitted in just minutes - without the need for specialist installation.

Hedgehog can also be used to prevent clogged garden and pathway drains, eliminating problems with water overflowing and creating dangerous and hazardous surfaces. It creates a barrier below the surface of the drain cover which prevents debris from entering and causing blockages.

Hedgehog Gutter Brush retails at just £14.99 for a standard 4mtr x 100mm brush and is available in black, brown or white. The product comes with a 10 year guarantee and is available from most good Builders Merchants and DIY outlets nationwide.

Gutter Clutter Facts:

- Homeowners can save on average £100.00 per year against the cost of professional gutter clearance with Hedgehog.
- Hedgehog can save the average householder 30 hours per annum against manually clearing their gutters and drains.
- In most cases, the cost of fitting Hedgehog Gutter Brush to homeowner's gutters and drains is less than the average cost paid per annum to have them professionally cleaned.
- Hedgehog can pay for itself in the first year of installation.
