This spring, leading luxury bedroom furniture (<http://www.featherandblack.com/>) retailer Feather & Black, features a collection of on-trend accessories in pretty pastels and sorbet shades. The affordable, but luxurious interiors edit gives lovers of indulgent textures and fabulous fabrics an easy and instant way of giving interiors a fresh pop of spring colour and brings the Spring/Summer colour palette trend first seen on the catwalk last Autumn, into the home.

The edited accessories collection features a delicate candy palette of blush pinks, baby blues, lemonade yellows, fresh minty greens and dreamy lilacs together with textures of velvety cashmere, sensual silks, soft waffle and crisp cotton.

Gabriella Douglas, Feather & Black buyers assistant, says: "We took inspiration from scoops of ice cream, sugary seaside rock and beautiful spring time blooms". After refreshing your boudoir with the palette cleansing sorbet inspired minty hues of the Mai Pistachio bed linen (from £19), Mischa Mint cushion (£25) and candy striped bed linen (from £18), snuggle up and enjoy those lighter spring evenings in our softest cashmere and merino with a Marina Throw (£125).

The fresh florals of the Florence bed linen collection (from £15) and sea-side inspired stripes of the Shelby (from £40) and Candy Stripe (from £18) bed linen collections will also bring a breath of fresh air into the gloomiest of winter bedrooms.

Feather & Black is a leading bedroom furniture retailer with 36 showrooms nationwide, offering a wide selection of exclusively designed products including coordinating bedroom ranges, metal and wooden beds (<http://www.featherandblack.com/Beds/Wooden-Beds.ice>) and mattresses, as well as children's beds (<http://www.featherandblack.com/Childrens/Beds.ice>) and bed linens and accessories for both adults and children.

The pastel trends accessories are available to buy online now.
