---

FISCAL Technologies forensics software protects leading construction group

FISCAL Technologies (<http://www.fiscaltechnologies.com>) providers of world-class accounts payable forensic software, has added the leading UK construction and regeneration group, Morgan Sindall plc to their expanding list of FTSE listed customers. Their financial shared service centre processes over £2 billion worth of spend per annum through their COINS accounting system.

After a detailed proof of concept trial, the Head of Finance at Morgan Sindall quickly recognised the benefits of using FISCAL's AP Forensics® suite ([http://www.fiscaltechnologies.com/solutions/ap\\_transaction\\_forensics.html](http://www.fiscaltechnologies.com/solutions/ap_transaction_forensics.html)) daily to protect their payables, and reduce the risk of fraud which has been increasing in the construction industry. FISCAL's easy to use, intuitive software delivered an immediate return on investment by pinpointing cost reductions and helping drive process improvement.

Chris Windsor, Head of Customer Development ([http://www.fiscaltechnologies.com/customer\\_success/index.html](http://www.fiscaltechnologies.com/customer_success/index.html)), comments "We are extremely proud to support their finance team at Morgan Sindall in their quest to have the best-in-class accounts payable team in the construction industry.
