---

Spring clean your fit kit and embrace your new work out regime with USA Pro's brand new 2012 women's fitness collection. Showcasing colourful, comfortable and stylish performance products that will invigorate your summer fitness routine. This stylish and feminine range features T's, gym pants, shorts, hoodies, jackets and accessories to complement your every work out.

The new range mixes vibrant colours with clean, sleek, comfortable lines that move naturally with your body and create sexy silhouettes, making you look and feel good. It's the perfect fusion of fashion and function, workout and leisure – for every lifestyle and every fitness fix.

Key pieces from the USA Pro range include racer back sports vests, sports bra tops, loose fit t's and a variety of gym pants all of which incorporate flat seam construction to prevent rubbing, along with PRO-Dry moisture management fabric to keep you dry as you workout.

You can get the entire new range exclusively from [www.SportsDirect.com](http://www.SportsDirect.com) as well as USA Pro fitness equipment and running shoes (<http://www.sportsdirect.com/mens/mens-running-shoes>), so you can complete your workout wardrobe this summer for less.
