

Crocus Consulting Supports Oracle's HR Risk and Talent Summit

Submitted by: Crocus Consulting

Wednesday, 13 June 2012

Crocus Consulting (www.crocus-consulting.com) a Gold level member of Oracle PartnerNetwork (OPN), is to support Oracle's HR Risk and Talent Summit at Oracle's London City office on the 22nd of June 2012.

The event focuses on the key issues and trends affecting the sector, ranging from the effective management of people risk and reward, through to the importance of HR talent data in fraud management. Risk in the Cloud is covered at the event which also focuses on the strategic role that Oracle's Fusion applications can play in managing HR risk and talent. A number of senior keynote speakers from both Oracle and industry will address these issues in detail.

Crocus Consulting has been chosen to support the event because of its close working relationship with Oracle, its commitment to Oracle's Fusion strategy and its considerable expertise (<http://www.crocus-consulting.com/oracle-integration/>) in implementing enterprise-wide and cloud based systems for managing risk. For his part Chris Smith Managing Director of Crocus Consulting commented, "Crocus Consulting is delighted to be supporting the HR Risk and Talent Summit in our role as an Oracle partner. When supplying services (<http://www.crocus-consulting.com/services/>) out in the field we find that these are critical issues and as such are areas where Oracle Fusion products can make a considerable difference. Our aim is to communicate the benefits of Oracle Fusion, in relation to these fields, to as many of our clients and prospects as possible.

"Indeed I would urge all Oracle PeopleSoft HCM customers to take a look at the HR Risk and Talent Summit agenda. Many of them will find the event extremely compelling and highly informative."

Notes to Editors:

About Crocus Consulting (www.crocus-consulting.com)

Crocus Consulting was formed in November 2000 by four of the most experienced ERP consultants in the UK. Crocus is a certified partner of Oracle.

Crocus has three strands to its business:

- Application support centres based in Milton Keynes and Leicester
- A consulting division delivering I.T. projects to large businesses
- A software sales division concentrating on delivering effective solutions to small and medium enterprises

The company's proven experience, combining technology, business and management expertise, enables clients to minimise disruption and gain maximum competitive advantage from implementation.
