London, UK, Monday 2nd July: Regtransfers, the largest provider of speciality number plates (<http://www.regtransfers.co.uk/np>) in the UK, is helping car owners show their naughty side with a range of humorous plates to fit any personality.

The range of naughty private number plates (<http://www.regtransfers.co.uk/prnp>) available from Regtransfers reflect traditional British humour with many that would be at home in Carry On films and in the sketches of comic greats such as Benny Hill. A cheeky plate is also a great way to make any car stand out, whether that is for good or bad reasons- we will let you decide!

The plates range from ME51 COW (messy cow) and B11 XOM (buxom), to the more risqué such as ORG 45M (orgasm), PEN 15 (penis) and 53 XEY (sexy).

Angela Banh, marketing manager of Regtransfers.co.uk says: "There is a wide range of naughty plates available from Regtransfers and they include cheeky words to suit any car owner's taste. Private number plates also make fantastic and humorous gifts, so if you have a NO51 COW in your family, why not buy them a registration plate for a bit of fun?"

"Contrary to popular belief, it is quite easy to buy a registration of your choice to display on your car. Additionally, if you have a coveted number plate that might be worth a fair amount of money, you can sell it. The possibilities are endless and the process is simple when you work with a trusted company that specialises in registration transfers."

Regtransfers is the largest independent specialist in registration plate transfer in the UK.
