Gourmet coffee company, Marley Coffee founded by Bob Marley's son, Rohan, has just launched in the UK with three premium organic blends in keeping with his goal of producing ethical coffees inspired by his reggae heritage and beliefs.

Adopting the ITAL standard, 'Rastafari' for all things Pure, True and Vital, Marley Coffee's unmistakable taste puts the free spirit back into the coffee drinking experience.

Marley Coffee One Love Organic Coffee Blend (227 grams net weight) – Medium Roast – Ground Coffee. Full of floral notes and revealing hints of blueberry, cocoa and spice, this well-rounded coffee tantalizes the palate, leaving a profound cherry finish.

Marley Coffee Buffalo Soldier Organic Coffee Blend (227 grams net weight) – Dark Roast – Ground Coffee. Roasted sweet, this earthy blend is sultry, smoky and deliciously smooth. The dark chocolate and berry undertones leave a rich, lingering finish.

Lively Up! Organic Coffee Blend (227 grams net weight) – Espresso Roast – Ground Coffee. Lively Up! is an exquisite espresso blend that is a full-bodied yet well-balanced coffee offering hints of cocoa, candied fruit and sweet caramel.

From partner farms in other top coffee-growing regions worldwide, Marley Coffee strives to support communities and the environment through organic, sustainable and ethical practices.

What's more, a proportion of all profits from Marley Coffee UK will be given to support Kicks for Cause, a foundation that aims to build playable soccer fields and soccer camps for children of the coffee-producing communities around the world, enriching their lives through sport. Marley Coffee UK is also a supporter of the One Love Foundation.

Marley Coffee will also be hitting the road with its Piaggio Coffee Cart this summer brewing up a storm at music festivals and events throughout the UK including the One Love Reggae Festival and the Notting Hill Carnival."
