---

We laugh, we giggle but high temperatures can play havoc with men's nether regions making beach holidays more of a nightmare than a pleasure.

FRESH BALLS is THE SOLUTION FOR MEN – it's a new product that makes the curse of sweaty balls a thing of the past. Containing Tea tree oil and oatmeal, it prevents wetness, chafing and odour in the groin area keeping men's balls just the way we girls like them - fresh and dry

This must-have Summer essential for men is a snip at just £14.99 and available at <http://www.passion8.co.uk/fresh-balls-solution-for-men-82667.html>

So, guys, this summer remember to keep 'em fresh!
