

Duttons refresh Vision for Bristol

Submitted by: Saintnicks Ltd (Duttons Design)

Monday, 22 October 2012

This year's Vision Bristol event has been given a fresh new look by Duttons Design. The vibrant new treatment has also been used in the design of a range of marketing material for the conference.

Vision for Bristol is in its third year and is produced by Bristol Media, the largest creative network in the UK. The ultimate in creative collaboration, the event gets the best in the business together, with a gathering of creative people from Advertising, Design, Digital, Marketing, Mobile, Social, Technology and TV.

Steve Davies, Creative Director at Duttons Design commented, "The role of Vision is to inform, inspire, provoke and above all, stimulate. The new look is successful in capturing more of this spirit, while achieving a practical evolution".

Vision 2012 takes place on the 14-15 November, in the heart of Bristol's award winning Creative Quarter, Paintworks. The event attracts high profile international speakers, who share their experience at a range of seminars and sessions across the two days to help other creative businesses grow and develop.
