indulge me link title (<https://itunes.apple.com/mt/app/indulge-me/id564023877?ls=1&mt=8>) has been launched to help people get the right gift, on time, every time.

indulge me has allows people to create detailed wish lists of gifts, with pictures and barcode scans, the location of the shop etc, for special events like birthdays, anniversary's, weddings, baby shower's, engagement, Thanksgiving, Christmas - or any occasion you choose.

It then allows you to share your item or list with family and friends via email / facebook / the app immediately or a number of days before the event, to give them enough time to make the right purchase for the occasion.

Once your friends download too, you can see their lists and tick off items you are planning to purchase from lists. However, if your friends don't use an iphone/ipad, they can still access your list online, at [www.indulgemeapp.com](http://www.indulgemeapp.com)

The app is priced at 59p. Just search for indulge me link title (<https://itunes.apple.com/mt/app/indulge-me/id564023877?ls=1&mt=8>) in the store

indulgeme is easy to use!

1-Create profile: Fill in your preferences and sizes.

2-Create Wish Lists: Take a picture or scan the barcode of your desired item. Add a description and any notes, tag the store's location and the item price.

3-Share with contacts: Add contact details of people to inform by email or via the app for specific occasions, i.e family and friends for a birthday or Christmas, colleagues for a baby shower, partner for an anniversary.

Send a message to notify loved ones immediately of your preferred gifts as you find them.
