

# Kitchen Magic now offer FREE Fitting on all Kitchen Refurbishments

Submitted by: Kitchen Magic

Tuesday, 30 October 2012

---

Kitchen Magic, one of the UK's first kitchen refurbishment specialists, have announced the launch of their FREE fitting service. The new offer reinforces the company's commitment to providing a great selection of high quality finishes for built-in kitchens whilst saving customers' time, money and effort.

The complete kitchen refurbishment service

"It's important to us that our customers achieve their dream kitchen in the most efficient and economical way without compromising on quality", says Marketing Manager, Samantha Davies, "Our free fitting service will spare customers the time and inconvenience that self-fitting can bring".

The FREE fitting service means that customers can take advantage of a full service from design right through to installation. One of the main issues with kitchen refurbishment is effective completion of the project. A lot of people imagine it's a simple DIY job, but then discover half way through it's a lot more complicated than they thought.

The most efficient and cost-effective way to transform your kitchen

"We transform old kitchens into beautiful luxury kitchens for a fraction of the price you would expect to pay if starting from scratch", says Samantha, "Retaining the existing cabinets, we can refurbish every aspect of the kitchen - replacing kitchen doors (<http://www.kitchen-magic.com>), drawer fronts and worktops as well as adding new units and appliances".

With a wide range of hand-made designs, well-known brands and a highly professional service, Kitchen Magic provides a first-class solution that can be adapted to an individual's taste and budget. This means that customers can benefit from:

- Cost effective and time efficient installation
- High quality kitchen fittings and accessories
- A wide choice of finishes, from traditional to contemporary
- Authentic craftsmanship and design expertise
- The complete service from start to finish

The right kitchen at the right price

"The success of a kitchen refurbishment depends on fully understanding customer requirements, so we also offer a free, no obligation planning and design service," concludes Samantha "Kitchen Magic are committed to providing high quality products as well as price transparency and an unconditional guarantee, so that customers can achieve their dream kitchen at no extra cost"

About Kitchen Magic:

Located in Birmingham city centre, Kitchen Magic is long established with over 26 years trading experience. As one of the first companies to specialise solely in kitchen refurbishment, they have built a reputation for their high level of service and have recently appeared on Channel 4's You Deserve this House.
