The Payroll Site (<http://www.thepayrollsite.co.uk>) has won the Payroll World Award for Specialist Payroll Provider, their second award in four weeks. The judges chose the winner based on evidence of business benefits, innovation and customer satisfaction. The result was announced at a ceremony hosted by comedian Terry Alderton at the Lancaster London Hotel on 8th November.

On 11th October, The Payroll Site won the Software Satisfaction Award for SME Payroll, beating their much larger rivals Sage, Iris and Intuit. The Software Satisfaction Awards were organised by Sift Media and Intellect, the trade association for the UK technology sector, and the winners selected by analysing over 10,000 completed user surveys.

The Payroll Site, the online payroll system for small businesses, is a small, family business based in Bushey, Hertfordshire. Managing Director Steven Tucker said "I am delighted we've been recognised by the panel, who are respected experts in the world of payroll. And we're still celebrating last month's victory, thanks to our happy customers".
