

Kelly Services® Streamlines HR Systems with Cezanne OnDemand

Submitted by: Talentia Software UK Limited

Wednesday, 12 December 2012

Kelly Services' Europe, Middle East and Africa (EMEA) region, today announced a partnership with Cezanne whereby the company will pilot its Human Resource Information System within Kelly's EMEA headquarters. Cezanne is a global HR (<http://www.cezanneondemand.com/>) and talent management software company headquartered in the United Kingdom.

Until recently, Kelly's operations in EMEA have been using a myriad of systems to record and manage employee data "As Kelly's operations throughout Europe, the Middle East and Africa are organised by practice and geography, we have a need for one system to store and analyse HR data effectively," said Giovanni Marangio, Vice President, Human Resources for Kelly's EMEA Region.

The Cezanne OnDemand (<http://www.cezanneondemand.com/>) solution appealed because of its ability to host all employee data on one central system, making it much easier to keep information current while providing useful metrics for the HR team. The self-service element, which allows employees to log in and update their personal and career information, is another key advantage as it significantly reduces administration time.

Kelly Services already manages many of its business operations 'in the cloud' so could immediately experience the benefits of a Software-as-a-Service (SaaS) solution such as Cezanne OnDemand. With SaaS, there is no need for companies to continually invest in their own hardware or software or to install updates. Users simply log on via a secure Internet server and have immediate access to the latest version of the system from wherever they are located.

"We have opted for a gradual implementation," said Marangio. "We are putting the foundations in place. Once we have finished cascading it to the target employees in a few months' time, we will investigate incorporating more of the advance features to strengthen Kelly's internal system."

About Cezanne OnDemand HR Software as a Service

Launched in June 2011, Cezanne OnDemand is the first HR software solution to be offered on a pay-as-you-go basis, with monthly fees being adjusted up – or down – to reflect the average number of employees being managed each month. It provides small businesses and mid-sized enterprises with a quick to implement, low-cost HR software solution to help streamline people management, reduce administration

and gather better HR intelligence to support planning and decision making. Pricing is just £2 per employee per month for companies of between 50 and 500 employees for HR and absence management, with performance management costing an extra £1.

Cezanne OnDemand is provided on a Software-as-a-Service basis, which means it is hosted and delivered online via a secure server, with updates automatically provided to clients as they are released as part of the subscription fee. There's no need for businesses to continually invest in their own hardware or software, or in installing updates. They simply log on via the Internet and have immediate access to the latest version of the system from wherever they are.

Available in English, Italian, Spanish, Portuguese and French, the Cezanne OnDemand HR software suite offers a wide range of features covering general HR administration, manager and employee self-service, absence management, legislative compliance, employee performance management, reporting, and now with the Autumn 2012 release, a social HR portal to enable information sharing and collaboration.

Customers include well-known online brands and fast-growing companies such as PhotoBox, Resilient Networks, Pebble IT, Moschino, IMS, Lapithus, Samskip, Rockpool Digital, Bright Purple, ista and Chapman Bathurst.

Headquartered in London, United Kingdom, Cezanne Software has many years' experience of delivering HR and talent management solutions to companies worldwide. With offices and partners across Europe and in the Americas, Cezanne Software today supports many hundreds of organisations ranging from large global companies to mid-sized enterprises and small businesses.
