Business owners don't need more networking opportunities - they need hands on business training (<http://www.thebusinesswealthclub.co.uk/swindon/>), mentoring and coaching to achieve Greater Success!

Friday the 18th of January 2013 will see another step in the rapid expansion of the World's most Powerful Business Training, Coaching and Support Network - The Business Wealth Club. This time the location is Swindon, hosted by it's latest fully trained Business Mentor and Coach Ant Hodges and Founder, Award Winning Business Coach Paul Avins. The Innovative format has attracted over 3,500 passionate business owners and Entrepreneurs from all over the UK and USA, who are keen to learn how to Boost their Sales Profits and Accelerate their Profits in today's challenging economy.

"Club Mentor Ant has a very impressive 12 Year track record in senior positions of the Online Marketing world," said Paul, "As well as desire to throw himself into new challenges and opportunities where his Leadership skills can shine."

The Business Wealth Club prides itself on appointing Mentors to its Franchises who bring a mix of real world results, experience and a passion to make a difference in their local business community – Ant is no exception. Having previously worked as a director for both a branding and marketing agency and an online marketing consultancy, Ant has experience of managing teams and working with international clients. He is now running his own successful online marketing business.

Life in business has not always been rosy. In 2009 Ant's business collapsed at the height of the recent recession and everything had to close, the entire staff were made redundant and debts then managed in the best way possible. After working for other businesses, Ant decided to dive back into running his own business and HodgesNet has been successfully growing since August 2011.

"I've experienced great success and been blessed to work with some amazing people in my business life" says Ant "but I also know what it's like at the coal face running a growing business and working long hours. I also know how other business owners feel and the price you can pay for not structuring your business for success. And I want to help set up businesses for success."

Ant was struck by Paul's passion to help Local Businesses and the depth of practical Street Smart knowledge. "When I first met Paul the first thing he did was give me a copy of his book, Business SOS. I read it that week and thought that the message in the book is something that every business owner needs to hear. I wanted to be a part of sharing this." said Ant.

The Business Wealth Club is for business owners of all sizes, entrepreneur's across all Industries, service professionals across all sectors including accountants, consultants and coaches, retailers, start up's and Internet based businesses - in short any business you can make money in.
