Maybe it's their memorable shape or perhaps the energy boosting properties that give avocados their reputation as being one of the best aphrodisiacs, but whatever the reason make sure you make more time for love and less time for food preparation this Valentine's Day (14 February) with OXO's (<http://www.oxouk.com>) new 3-in-1 avocado slicer.

Whether you're planning a simple salad to begin your romantic feast or a Mexican themed affair, OXO's new gadget will make preparing your avocados quicker, easier and safer than ever before, creating uniform slices of avocado in just three easy steps. And thanks to its unique design your romantic evening won't be rudely interrupted by a trip to A&E with a knife injury.

The plastic blade easily cuts through the skin and fruit of the avocado, without being sharp to the touch. The pitting tool, which features sharp stainless steel teeth, allows you to quickly remove the stone with a simple twist – no more dangerous stabbing it out with a knife. All that's left to do is simply scoop out the rest of the fruit into perfect slices with the slicer's fan blade and serve up your avocado in a jiffy, leaving you more time for the fun stuff this Valentine's Day.

Price: £8 available from Lakeland, Selfridges and Amazon.

Designed to make everyday living that little bit easier, the award winning OXO Good Grips range offers over 200 stylish, yet practical tools for the home including kitchenware, organisational tools, bathroom and cleaning products. The company also offers an exciting design-led collection of award winning baby equipment including essential feeding and weaning tools in three bright colours, handy cleaning tools and a super stylish, ultra functional highchair.
