

# VOLTZ TO OPEN FREERIDE SKIING & SNOWBOARDING CHAMPIONSHIPS IN ANDORRA

Submitted by: Jane Dean PR

Friday, 11 January 2013

---

The Voltz Freeride Qualifier will enjoy its debut launch on 22nd February at Vallnord-Arcalís in Andorra, forming part of the first edition of the OPEN VOLTZ FWQ1.

Now in its 16th year, the Freeride World Qualifier Tour commences on the 21st-24th February where the best freeriding skiers and snowboarders, from over 20 different Countries, meet to hone their skills in a punishing environment.

EL DORADO FREERIDE (EDF) was born in 1998 when Riders first contended the extreme competition of skiing and snowboarding in the Pyrenees. This first edition was celebrated in Vall de Núria on the 14th/15th February 1998. The finale of the competition takes place on the mountainous peaks of Vallnord-Arcalis, which is accessed by a breathtaking helicopter ride to the summit and El Dorado is one of a total of 41 stations in the ultimate Freeride World Tour.

VOLTZ MD, Robert Arnold says "I'm honoured that Voltz will be opening the competition and I'll be there to encourage the competitors in the extreme conditions".
