

Cleaning the oven? Now it only takes moments

Submitted by: John Mills (JML)

Thursday, 17 January 2013

No doubt during Christmas and the New Year your oven will have been put to good use so it makes sense to ditch the elbow grease and use Doktor Power Oven Cleaner to tackle the toughest and most challenging job in the kitchen.

The secret lies in its cleaning bag. Simply place your oven racks in the bag, pour in the oven cleaning solution, then seal, wait and rinse with hot, soapy water. All of the mess stays in the bag and your racks are left spotless and gleaming. To clean your oven, pour in a little solution, apply it with a sponge and leave it to soak for 4 hours. Once finished you can wipe off the residue with a sponge or cloth.
