

# DEVON DUVETS HELPS YOU TO STAY COOL AND FRESH THIS SUMMER

Submitted by: Thinc PR (JBA Public Relations)

Friday, 15 February 2013

---

With weather forecasters predicting a scorcher this summer, and temperatures expected to reach the high 20s and 30s, avoid feeling hot and sweaty with Devon Duvets' summer weight duvet. Craftsmen of the finest British woollen duvets, pillows and mattress toppers, Devon Duvets' range of all-natural bedding is designed to keep you comfortably cool throughout the night.

Expertly hand-filled with 300 grams per square meter of unbleached Platinum Certified British wool, each summer weight duvet is covered in a 300 thread-count cotton case.

Wool works to regulate temperature by wicking moisture away from the body, before releasing it into the air. This helps maintain a sound, undisturbed night's sleep all summer long. Naturally hypo-allergenic and resistant to dust mites, wool is also the perfect natural anti-allergy bedding.

Lightweight and versatile, partner the summer duvet with either a Devon Duvets Classic or Patented Folding Pillow design. Available in a choice of wool from Classic Natural to Organic – accredited by the Soil Association – prices start from £110 for a single size. For more information or to request a brochure, please visit [www.devonduvets.com](http://www.devonduvets.com) or call 01803 712 977.

Notes to Editors:

Husband and wife team Dick and Pauline Beijen bought their flocks of sheep during the summer of 2008 as the first step into their idea of creating high quality, all natural British woollen duvets. After more than a year of development work, the latter part of which was filmed by Channel 4 with Monty Don in his series 'My Dream Farm', Devon Duvets was born.

The concept of using British wool in duvets and pillows was largely un-thought of at that time and the Beijen's are delighted there is now a rediscovery of British wool that helps to support our farms.

They now produce a range of high quality British Woollen duvets, pillows and mattress toppers from standard sizes to bespoke, adults to children; all individually handcrafted in their workshop in Devon using the very best materials. Not only are their products made in Britain and the wool British, the wool is processed locally and packaging and labeling is produced in Devon, supporting our economy and environment.

Devon Duvets is committed to creating high quality 100% British woollen products that are sustainable and have a carbon footprint that is as small as possible.
