

# Business Insurance Comparison Given Perfect Summer Boost at All About Savings

Submitted by: All About Savings

Monday, 15 July 2013

---

All About Savings and their team of industry standard business insurance comparison specialists (<http://www.allaboutsavings.co.uk/business-insurance/>) have marked the current British heatwave by announcing the introduction of their latest offering. The site has gone from strength to strength since its creation just last year and has set standards when it comes to finding the very best quotes for business gas and business electricity.

Valuing customer feedback is the bedrock of the All About Savings ethos, which is one of the reasons they decided to develop their all new business insurance comparison service. Their product works in very much the same way as their gas, electricity and telecoms services and will look to save businesses of all sizes and types a fortune on their all-important insurance.

“It is our mission to save UK businesses as much money as we possibly can on every aspect of their outgoings. We have already found great success when it comes to business gas, electricity and telecoms and we are confident that companies around the nation will find our new product easy to use, non-invasive and therefore be able to reap the benefits.”

“We have used our top web designers, most trusted business insurance experts and years of experience in the sector as a whole to come up with a tool that is free of charge and a lifesaver when it comes to reducing spiralling business outgoings” said Maximillian Thornton, All About Savings Marketing Manager.

With temperatures soaring and the British succeeding at a host of sports at present, spirits are high in the UK despite the on-going recession but one thing that is still at the back of many minds is money. All About Savings are looking to alleviate a lot of these worries by saving UK businesses substantial cash on their energy, insurance and telecom bills.

There are plans afoot for even more new products at the All About Savings website and these will be announced nearer the time.

More information about any aspect of business insurance can be found by visiting [www.allaboutsavings.co.uk/business-insurance](http://www.allaboutsavings.co.uk/business-insurance). Business owners and proprietors are urged to visit the new and improved website to find all the latest news via their interactive blog. They can also examine company profiles about all of the major providers in the UK and speak to their panel of experienced advisors – all of this is completely free of charge.

Interested businesses can also take a look at the All About Savings Facebook page. This looks to keep everyone up to date with all of the latest developments from the business energy industry.
