

# Go green with Malki Dead Sea

Submitted by: RDC (UK) Ltd

Tuesday, 12 August 2014

---

For a rare 4 - week period this autumn the Malki Dead Sea bath care range (<http://www.deadseabathcare.co.uk>) will be on special offer in Boots. From 3rd September to 30th September the Malki Dead Sea bath range will offer a rare opportunity to stock up with a special offer! Buy any 3 and the cheapest is free!

Dry, itchy and flaky skin conditions such as eczema and psoriasis can affect people of all ages, including babies and children. The symptoms, which can be mild or severe, have been around for centuries yet there is still no complete cure. Treating these conditions is tricky and for sufferers can be a case of trial and error when searching for the right skincare to soothe and help heal their sore, irritated and often cracked skin.

Now that the NHS has diminishing funds, research into alternative therapies for skin problems may be left on the back burner, making it harder to find a treatment that doesn't include steroid creams. Parents often despair when their little ones develop eczema, with the itch-scratch-itch cycle leaving them both distraught and desperate for a natural solution.

## HOW MALKI DEAD SEA MINERAL BATHCARE CAN HELP:

The power of Dead Sea minerals is unrivalled with their calming and healing properties well known. Malki's 100% natural Dead Sea minerals skin and bodycare harnesses all of this skin-soothing goodness while leaving out the aggravating chemicals often hidden in other skincare products. Many eczema sufferers claim that various detergents cause their delicate skin to flare up but have found the pure vegetable oil and mineral-rich Malki skincare products to help ease and relieve symptoms.

The gentle soaps, bath salts, washes and lotions contain nothing more than natural olive, coconut and palm oils blended together with minerals including potassium, magnesium and sulphur. They're free from sodium lauryl sulphate, an irritating foaming agent, paraben preservatives and lanolin, a wax extracted from sheep's glands. They also contain no synthetic fragrances or colourings.

Malki Dead Sea products are not a miracle cure but they have gained a cult following from eczema, psoriasis and acne sufferers over the past 25 years who've found relief in their soothing mineral ingredients.

What are their Malki favourites? Genuine Bath Salts, Natural Sulphur Soap, Black Mud Mask Soap, Natural Mineral Shower Cream and Natural Mineral Shampoo. Check the website to see what they say at [deadseabathcare.co.uk](http://deadseabathcare.co.uk).
