

Field and Trek. Walk into Winter with Deals on Waterproof Walking Boots

Submitted by: SportsDirect.com

Wednesday, 24 September 2014

Winter walking needn't be abandoned just because the weather is turning cold. There are many great locations to go walking and outdoor specialists FieldandTrek.com have a wide range of walking boots to enhance the experience all-year-round.

Wearing the correct footwear can help reduce injuries and blisters, for example, walking boots with a rubber heel, a gripped sole and a strong toe cap can reduce the chances of injury and increase the likelihood of a better walking experience. Field and Trek are aware that quality, affordable footwear is highly sought after, which is why they stock the Karrimor Hot Rock walking boots at a bargain price of £39.99*.

Gore-Tex is another great option for the keen adventurer. Gore-Tex technology consists of breathable, waterproof materials that are ideal for walks in areas of high moisture. Hard-wearing materials will last much longer than others and although this may come at a premium, the Berghaus Explorer Ridge Gore Tex walking boots are currently only £109.99* online with FieldandTrek.com.

Socks are equally as important as shoes when it comes to comfort. The friction between the shoe and sock needs to be minimized so the feet do not take the brunt of the constant movement and as a result, develop blisters. Field and Trek's Karrimor socks can do the trick at a reasonable £3.25*.

Waterproofing equipment for walking shoes is recommended to keep the condition the best it can be. Waterproofing your shoes can maintain their support and breathability; the Nikwax easy sponge application is ideal for convenience, speed and price, at £3.99*.

Field and Trek has a vast selection of walking shoes and accessories, many of which are available for next day delivery*. These can be found at <http://www.fieldandtrek.com/walking>.
