Delivering Joint Workshop in Paris on Transformation Programme: Harmonizing Financial Operations

LONDON, UK, DALLAS, TX & PARIS, FR - December 4, 2014 –Trintech, the leading global provider of integrated Record-to-Report software solutions for the office of finance, is pleased to announce a joint workshop with its customer, Sanofi, at Financium, the annual gathering of finance leaders organised by DFCEG, being held on 9-10 December, 2014 in Paris, France.

Flora DUPONT of Trintech France will lead a workshop entitled “How To Improve Your SSC” on 9 December from 13:45 to 14:30, where Sanofi will illustrate their best practice approach across finance and procurement functions and how to increase end-to-end efficiencies in a Shared Service Environment (SSE). Speakers from Sanofi include:

Eric BESSE Business Process Owner Finance & Procurement, Finance Operations Europe
Delphine BURLIN Project Manager, Finance Operations Europe

This workshop focuses on how to improve both visibility and reliability of the financial closing process, with guidance and advice on how to implement a structured tool ‘closing tracker’ across Europe and worldwide.

“Many companies are trying to achieve increased efficiency, visibility, and coordination across many stakeholders and in-country Finance. We feel it is important to share our real-world experiences tackling these challenges to demonstrate our commitment to the highest standards in Finance,” says Eric Besse of Sanofi.

Trintech has a strong history of success offering its financial close software solutions throughout Europe, and has acquired an impressive client portfolio including ABB, Avis Budget, Diageo, HSBC, Unilever, Vodafone, and AstraZeneca, who recently received the 2014 Alsbridge Innovation Award for its balance sheet reconciliation transformation project. In addition to accolades from the Computing UK IT Industry Awards and British Accountancy Awards, Trintech is currently a finalist for the European Business Awards. The company was also recently invited to join the Cloud Security Alliance [CSA] alongside dozens of the most highly recognized cloud computing providers worldwide such as Cisco, eBay, Google, Microsoft and Salesforce.com.
