Note to editors:

Founded in 2004 by the Wilton family, Chocolate Delight was one of the first companies to have a commercial chocolate fountain in the UK and quickly established itself as the leading chocolate fountain hire company. It was soon called on by corporates, event companies and celebrities to provide fountains for functions such as film premieres and weddings, including Peter and Jordan's. In 2006, the Wilton family saw the opportunity to expand and bought a beautiful but outdated 19th century grade II listed hotel. Christmas 2007 saw the renovation of the building and it became The Chocolate Boutique Hotel, the

world's first chocolate themed hotel. Today, Chocolate Delight is one of the most successful UK chocolate companies in its field and holds Chocolate Workshops at venues across the country. Its Corporate Chocolate Teambuilding events commenced late in 2005 and are now run all over the UK and more recently in Europe.
