---

Tenants of Housing Executive in the Aghagallon, Wakehurt and Taghnevan areas of Lurgan are enjoying new double glazed windows. DG Solutions responds to the news.

Work on 216 homes is set to be finished in the coming months, with an investment of over £313,000 in total by Housing Executives. Tenants have been able to feel the benefit of warmer homes with their newly double glazed windows. Spokesperson for Housing Executive, Denise McNally, stated: "This is a terrific boost for our tenants; I am delighted we have been able to progress this scheme.

"Over the years, our homes have been regularly upgraded and maintained and, in this contract, the single glazed windows which have reached the end of their useful life are being replaced by PVCu double glazed units (<http://www.dgsolutions.co.uk/windows/>). With their replacement, our tenants will benefit from greater energy efficiency, noise reduction, warmer homes, and lower heating costs in their homes."

Shauna Maguire, who recently had double glazing installed in her home through the scheme, explained: "It was great to see the new windows go in and I've already noticed the benefits of a warmer home and less noise. I am looking forward to seeing lower heating bills, too." As leading providers of double glazing and PVCu windows, DG Solutions takes a keen interest in relevant news stories. A spokesperson from the company made the following statement:

"High quality windows and first class double glazing can really make a huge difference to any home. Outdated windows are unreliable and are likely to be costing tenants hundreds of pounds in wasted energy. With seals that leak heat and single window panes that offer little security or noise reduction, it is in the best interest of homeowners to make the necessary upgrades. There are still millions of homes across the UK which rely on single glazed windows. To increase the value of your home and reduce heat loss, double glazing is a necessary and affordable solution."

DG Solutions (<http://www.dgsolutions.co.uk/>) is a leading provider of double glazing throughout the southeast. With 30 years of experience in the industry, DG Solutions specialise in providing a range of bespoke energy efficient, double glazing solutions. Proud holders of a Government Endorsed Standards 'Trust Mark', DG Solutions has sustained a well-earned reputation for door, window, roofline and conservatory installation.
