

Inoapps Opens New City Of London HQ

Submitted by: Inoapps

Tuesday, 15 September 2015

Award winning Oracle Platinum Partner Inoapps (www.inoapps.com) has continued its expansion with the opening of a new Group Headquarters in the City of London. With its rapid global expansion across EMEA the Far East and the Americas the company, which was founded in Aberdeen, believes that the new office at the heart of London's international financial district is a natural development. The City Point location is also close to Oracle's London offices in EC2.

Inoapps' commitment to opening new office locations can also be seen across the globe. The company opened its first US office just over a year ago and now has a headcount of fifty. There are also advanced plans to open an office in Dubai in the near future. Combined with Inoapps' existing presence in the Far East, the company is now emerging as a truly global force.

The consistently strong company growth, behind the news, has been driven by Inoapps' launch of a number of successful service packages aimed at organisations that want to move their systems to the Cloud. The InClusive®

(<http://www.inoapps.com/inoapps-new-inclusive-range-provides-complete-oracle-cloud-applications-with-no-upfront-costs/>) package enables companies to obtain Oracle Cloud Apps, implementation and support on a monthly fee basis with no upfront cost. Similarly, the In2Cloud®

(<http://www.inoapps.com/oracle-upgrade-services/cloud-upgrades/>) app enables Oracle E-Business Suite users to move quickly to the Cloud from as little as 10 weeks. The company has also recently launched a widely acclaimed EPM (Enterprise Performance Management) division, which enables organisations to make smarter business decisions through class-leading planning and analytics.

Commenting on the new City of London offices, Andy Bird CEO of Inoapps noted, "The opening of a City HQ is a major landmark in the company's history and represents a significant investment in supporting new and existing customers both domestically and across the globe. These offices will also give us the space we need to drive our future growth plans and give our team a superb working environment. As you would expect with Inoapps, the building is equipped with the latest technology and this will complement our own modern best practice approach to business."

The contact details for Inoapps' City of London office are as follows:

City Point
9th Floor
1 Ropemaker Street,
London
EC2Y 9HT
