---

Sweatshop.co.uk officially puts both the TOMTOM Runner2 Cardio Music GPS Watch HRM and the TOMTOM Runner2 Music GPS Watch, available for pre-order.

Both advanced pieces of technology are currently exclusive to Sweatshop.co.uk and are jam packed with helpful tools, to help you optimize your running experience. Each comes with 3GB of storage allowing up to 500 of your favourite body pumping songs, as well as coming with pre-loaded tracks by the Ministry of Sound.

But it's not all about the entertainment as each watch also contains built in heart monitors, audio performance feedback, real time information such as pace, time and calories burned along with the ability to set goals and targets. Everything you need to ensure you're reaching your complete potential.

To keep ahead of the latest launches from Sweatshop.co.uk, take a look at their Facebook (<https://www.facebook.com/SweatshopUK>) and Twitter (@sweatshoponline) pages. Check out the Sweatshop Run Hub (<http://runhub.sweatshop.co.uk/>) for all the latest running news and advice.
