hungryhouse.co.uk has looked in to one of the UK's guiltiest pleasures of late night takeaway to reveal how ordering habits change after midnight.

From those surveyed, 1000's admitted to dating delivery drivers, 32% revealed they had fallen asleep after ordering and many owned up to overspending.

The online ordering platform recently released their 'One Tap Re-order' feature, which allows you to order your most recent purchase at the touch of a button and will hopefully help the ordering process in the early hours.

See the infographic for more information.
