

Growing your #baby the moodelli way!

Submitted by: Price Jones Partnership (PJP)

Monday, 16 November 2015

Lauded internationally moodelli's (<http://www.naturalbabyshower.co.uk>) cleverly designed nursery collection is now available in the UK for parents to buy. This ingenious collection designed by three Spanish entrepreneurs, all themselves fathers, has resulted in an incredible range of totally unique items of furniture.

The team has cleverly designed a collection that completely rethinks the concept of babies' nursery furniture. Take for example their stunningly, versatile BabyBox (<http://www.naturalbabyshower.co.uk/products/moodelli-babybox-extendable-cot>) an extendable cot; well actually, it is three cots in one, that extends and grows with a child from birth until they are around 2 years old.

Dressi (<http://www.naturalbabyshower.co.uk/products/moodelli-dressi-dresser>) on the other hand, is a baby changing table with a cutting edge design that is so contemporary it wouldn't look out of place anywhere in your home. Whilst it's beautiful to look at, it is also extremely functional and a delight to use.

Growi (<http://www.naturalbabyshower.co.uk/products/moodelli-highchair-baby-set-6m>) is utterly unique – it literally does what it says on the label - it grows with your child from new-born onwards, effortlessly transforming itself into a baby bouncer, highchair, chair and many other different options along the way!

moodelli has really pulled out all the stops with this new collection. You can see why they are renowned for their cutting edge design, innovation, functionality and keen eye to detail. Find out more by visiting NaturalBabyShower (<http://www.naturalbabyshower.co.uk/pages/search-results?q=moodelli&p=1>)
