We are opening the doors to the Enchanted Garden Fashion Extravaganza and Masquerade Ball. On the 29th May 2016, Home House, Portman Street, London, shall be transformed into a magical, enchanted garden of mystery and mayhem. DI events, have facilitated a unique mix of fashion, art and live entertainment that have been brought together to create a night to remember. Come, be a part of our creative world of enchantment.

The interactive fashion show features designer, Linda Blissett's new couture collection recently shown at London and Paris Fashion weeks. The designs are inspired by bold colours and flamboyance of the art from the Pre-Raphaelite era. The dresses feature an intricate architecture of modern and traditional woven fabric worked into eclectic art, transforming the wearer and turning any event into a modern Fairy-tale. Jayne-Elizabeth Millinery present their unique collection of designer couture hats, including traditional pieces of classical beauty as well as eccentric pieces of contemporary art. We are also very privileged to have with us L.A. based accessories designer to the elite Marianna Harutunian whose pieces have been worn by Lady Gaga, Beyonce and Selena Gomez and Dark Whimsical accessories designer Metamorph Quirky Couture, showing their latest collection.

The Home House décor will bring the Enchanted Garden into bloom through exotic plants provided by The Kew Gardener. Artist, Kavita-Priya Mohan with her projected display of Pre-Raphaelite inspired paintings, will provide the backdrop for the interactive fashion show and live entertainment.

Live shows will include unique performances by Dimona-Annette Dougherty an amazing London based digital light show artist who utilizes persistence of vision in their performance. A musical mix of popular favourites will be filling the air by Astra Jamieson and friends backed up by her fantastic band.

For one night only a Mid -Spring's night of fun, enchantment and fantasy welcomes you to come and join the party...
